## Referenties ontdubbelen in Zotero

Dubbele records in Zotero kan je samenvoegen (mergen)

Het totaal aantal records wijzigt dan, maar de aantallen in de aparte folders blijven behouden, tenzij het dubbele record in dezelfde folder zit.

Als je klaar bent, kan je 'My library' exporteren om elders te screenen

Vraag aan je klanten voordat ze beginnen, of ze al gebruik maken van Zotero, dit kan namelijk problemen opleveren

# Overige opmerkingen

- Indien je export limit van een database erg laag is, neem dan contact op met het platform (Ovid, EBSCO, etc)
- Full text vinden via de referentie manager
  - Zotero: *ctrl* + *a* > rechtermuisklik > Find available PDF's
  - Endnote: endnote preferences > find full text, vul openurl path en/of authentication URL in
  - De opbrengst wordt steeds slechter omdat niet alle uitgevers dit toestaan
  - Ik doe dit op de inclusie set, na screening elders
  - Doe dit binnen het domein van je instelling (VPN etc)
  - Geeft lang niet altijd publishers version, attendeer klant hierop
